What is the difference between a school and an academy?

One key priority of *Preserving the Vision*, the strategic planning process for Catholic education in the Diocese of Brooklyn, is to transition all Catholic elementary schools to academies by 2017. The main difference between a school and an academy is in the governance model. A Catholic school is governed by the parish, so the pastor is directly in charge. An academy is governed by a two-tiered board that is comprised of a Board of Directors and a Board of Members. This image depicts the transition.

**Academy Roles**

**The Board of Members** is comprised of pastors aligned to the academy, the bishop, and the superintendent. Together, they function as prime sponsors of the academy. They appoint the Directors and ensure the overall Catholic identity of the academy and its programs. In some cases, the “Board of Members” oversees multiple academies.

**The Board of Directors** is composed of lay people who function as the governing body of the academy. They select the principal and serve as the immediate supervising body. They are passionate about Catholic education and share their expertise in the areas of: finance, facilities management, institutional advancement, marketing, and public relations.

**The principal** is the instructional, educational, and spiritual leader of the academy, as well as its chief educational operating officer. He or she also communicates directly with the Home/Academy Association.

**The Home/Academy Association** is comprised of parents who have children in the school. It serves to support and enrich the educational and formational endeavors of the academy, and works to promote a connection from home to academy.

**The teachers and the staff members** fulfill the mission of the academy. The teachers plan, guide, and evaluate the learning process of the students for whom the teachers are responsible within the framework of the academy’s philosophy, organization, and curriculum. The staff implements the mission through their assigned responsibilities.

Catherine Laboure Program (Special Education)

Mission:
The Catherine Laboure Program was designed to provide exceptional service to Learning Disabled, Speech Impaired or Intellectually Disabled students. Founded in 1965, the program offered a long-term commitment to and with firm conviction, that children with special needs of all ages, religions, and socio-economic backgrounds would be trained academically, socially and vocationally to become independent, to be contributive, and to be able to take their place in society with dignity. We aspire to give each child a sense of self-worth and dignity; to increase their awareness and understanding; to stimulate moral and intellectual growth and the development of social awareness; to educate each child to the level of his or her potential; to enhance the quality of the lives of our children by helping to equip them with the survival skills so that they may one day live on their own and become self sustaining; to promote and encourage self-help and equality of opportunity in the work force and to train students who are Intellectually disabled to handle the school to work transition by developing strong sequential work/education experiences for each student.

Queen of All Sts Catholic Academy

Mission:
We believe that education includes the spiritual, intellectual, moral, personal and physical development of the individual. Our vision is based on the notion that “Christ is the reason for this school, the unseen but ever present teacher in its classrooms, the model of its faculty and the inspiration of its students.” We are inspired by the life, death, and resurrection of Jesus Christ. This inspiration permeates all we do to develop the Christian atmosphere present in our school. We treat each other as well as our students with respect and expect the students to do the same. We realize the strong foundation we provide is essential for a successful life. Therefore, we foster an atmosphere where learning can take place. We foster academic excellence for all of our students. We are cognizant of the fact that each of our students is an individual. Therefore, each student must be treated in a way that enhances his or her personal development.

Ave Maria Catholic Academy is dedicated to building an atmosphere of love, trust, and care among students, parents, and staff. We share with the family the threefold mission of the Catholic Church: to teach the Gospel message, to build community in the life of the Church, and to provide service to the Church and world community. At AMCA, we are actively involved in forming the whole person spiritually, mentally, and physically. Students develop a positive life outlook and self-image through the teaching that all people are worthy of respect, have a right to their dignity, and are special in the eyes of God. Through the integration of Catholic religious truths and values within the curriculum, students develop insights into the problems that face individuals and society today. Students also acquire skills to address these issues effectively. Through prayer and in conjunction with parents, priests and community, our mission is to instill a love of life, respect for others, an eagerness to learn and a willingness to grow and follow the Gospel of Jesus Christ in word and action.

St. Kevin Catholic Academy is committed to the belief that the ultimate goal of education is to develop the whole person. We are convinced that the academic, social, physical, technological and cultural objectives we hope to achieve in the educative process flow from this belief. Mission:
The Board of Pastors of St. Stanislaus Kostka, Holy Cross, and Transfiguration Parishes believe that Saint Stanislaus Kostka School is an integral part of the evangelization of the Maspeth community. This belief is rooted in the fact that Saint Stanislaus Kostka School, in conjunction with the three parishes, provides for the education of the children in an atmosphere of academic excellence while handing on our Catholic faith and practice as well. Knowledge and its application to everyday life are the attributes in both the human and the Christian wisdom that we seek to impart to the students. Teaching as Jesus did, with respect, sensitivity, compassion and concern, guides the Board of Pastors, the Principal, and the Faculty of Saint Stanislaus Kostka School. Parents are recognized as the primary educators of their children, and Saint Stanislaus Kostka School assists them in fulfilling this responsibility by maintaining ongoing and open communication with the parishes and the school.

Mission:
Our academy is determined by a firm belief that every child can learn and fulfill his/her potential. Rooted in our belief that Christ is our center, we instill in the students that God loves us, accepts us always, and forgives completely. As Christian educators, we commit ourselves to live in the spirit of the Gospel and create an environment where students are inspired to grow spiritually, morally, intellectually, personally, and socially. The school community of St. Thomas the Apostle encourages equality and a belief in the dignity of every person. All our efforts as Christian educators are based on the conviction that Christ is “the way, the truth, and the life.” (John 14:6)
